

R2/R4

The scope of this effort is to provide on-site logistics support and coordination within the various centers of MCLC. Assistance is required to support the MCLC coordinated R2/R4 process which includes the following:

- *Staff, develop, coordinate and monitor MCLC operational matters pertaining to strategic and contingency planning.
- *Provide support in the maintenance management of Marine Corps ground.
- *Provide support for the enterprise and program level integrated logistics/supply chain management services, and Enterprise Lifecycle Maintenance Planning.
