Strategic Plan

Distribution Management Center Vision/Mission

Mission

The Distribution Management Center (DMC) has exclusive responsibility for Marine Corps enterprise-level distribution management and for planning and management of storage operations for ground weapon system Principal End Items (PEIs) and associated collateral materiel. DMC will effect the most reliable distribution of all classes of supply to sustain readiness of forward deployed forces, while maintaining CONUS-based operations.

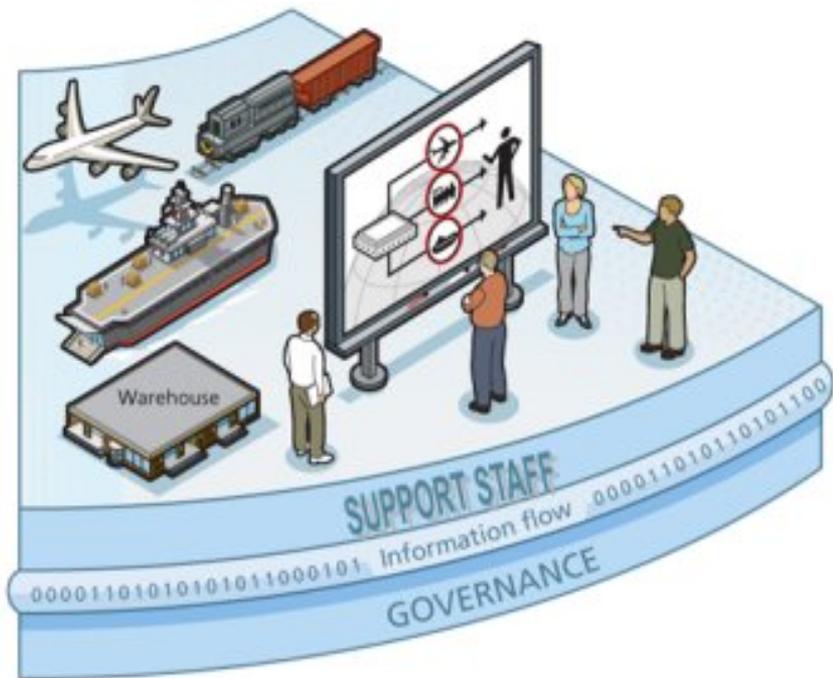

Vision

Create, implement, and evolve an integrated, agile, synchronized and responsive Marine Corps wide Distribution Center of Excellence and strategic storage capability that effectively leverages technology, collaboration and partnerships to support the OPFORS, equipment acquisition, other Services and Combat Support Agencies assigned missions.

Primary Functions

- Integrated “best value” distribution solutions
- USMC Process Owner for E2E Distribution
 - Capacity management
 - Air Clearance Authority
 - Technical direction globally
 - Support to the Operating Forces
 - Performance mgmt of service providers
- Storage Operations
 - Technical direction globally
 - Accountability/Receipt/Care/Storage/Issue PEIs
 - Single process owner for PHS&T

Forward Deployed LNOs

- Strategic Nodal Expeditors
- With Distribution Providers

Distribution Management

“In its broadest sense, distribution is the operational process of synchronizing all elements of the logistic system to **deliver the **"right things"** to the **"right place"** at the **"right time"** in order to generate and sustain the military capability required by joint forces.”** Joint Publication 4-09 (Joint Doctrine for Global Distribution)

“Provide the most effective and efficient throughput of supplies, equipment and personnel, feasibility estimates and modes/sources of distribution, requisitioning of supplies and equipment, and potential modes/sources of transportation to support strategic, operational and tactical mobility/movement.”

Marine Corps Order 4470.1(MAGTF MDDP)

Addresses:

- Reduced Military Force Structure
- Reduced Resources
- Broad range of contingency ops with different capability set requirements
- Standardized COSIS
- Relevant & Rapid response

- Task organizes capability set(s) to mission
- Delivers to point of effect destination required
- Integrates multiple programs/equipment groupings/\$
