PRODUCT/SERVICE DEFINITION**

As of: Monday, March 23, 2015 13:39

**1. PRODUCT/SERVICE TITLE:** The official name of the Product and Service  
Lifecycle Maintenance Planning Program Management

**3. LEAD ORGANIZATION:** Name of the organization overseeing the Product and Service.  
Weapon Systems Management Center (WSMC)

**6. DESCRIPTION:** A detail description or definition of this Product and Service (it's function, purpose, reason for existence.)

- Responsible for Program Management of requirements determination, coordination, and monitoring through execution, depot maintenance requirements for ground weapon systems.
- Requirements determination process includes working with Enterprise stakeholders to identify depot maintenance requirements across the FYDP, supported by Program Managers' maintenance strategies, input from OpFors and strategic input from HQMC (CD&I/LPC).
- Responsible for development of short and long range budget requirements to support depot maintenance program, as well as execution of funding to support current and emergent requirements, which totals over \$500m annually.
- Responsible for planning, coordination and execution of dynamic process involving the return of over 20,000 PEIs each year from stakeholders across the Marine Corps to support synchronization of equipment scheduled for depot maintenance with organic, commercial and other service depots across the CONUS and Korea.
- Responsible for coordination and development of ELMP performance framework that establishes key metrics to support core functions of ELMP planning and execution process.
