permuta

We believe in helping the US Government be as prepared as possible to put the right people, in the right place, at the right time with ease.

Doing so, will make the country stronger, safer, and more competitive.

We do this through cutting edge innovative software already trusted by government customers to accelerate speed of decision making.

permuta

We put the right person, in the right place, at the right time.

"Innovation distinguishes between a leader and a follower."

-Steve Jobs

About Permuta

Who we are

Permuta is a veteran-led technology company that has been delivering advanced software solutions to the Federal Government for over two decades.

Core Values and Vision

Driven by innovation, reliability, and excellence, we are committed to supporting national defense and federal operations.

Specialized Solutions

Our flagship products **Defense**Ready and **Federal**Ready are a suite of capabilities designed to optimize readiness (human, hardware, process) while reducing costs and saving time.

Innovative Approach

Leveraging customer feedback and AI/Machine Learning/Custom Large Language Model, our solutions provide augmented intelligence insights for real-time decision making.

Why Permuta?

Modernize while cutting costs

Boost readiness and security while cutting cost of outdated tech and non-compliant tools.

Future Proof

Modernize Workforce management within a secure and scalable platform.

Decision Power

TRANSFORMING DATA INTO DECISIONS FOR REAL-WORLD IMPACT

The Problem

Data Silos

Fragmented workforce and readiness data hinders decisive action.

Workforce Optimization

Major challenges in recruiting, retention, strength, skill alignment, career paths, personnel placement.

Legacy Systems

Outdated tools and processes impede efficiency and delay outcomes.

The Solution

UNIQUE

Only product specifically dedicated to the Federal marketplace

BATTLE-PROVEN

20 Yrs and over 180k hours of development culminating in advance proven capability.

FAMILIAR

Native integration with all Microsoft products, built on the Microsoft stack
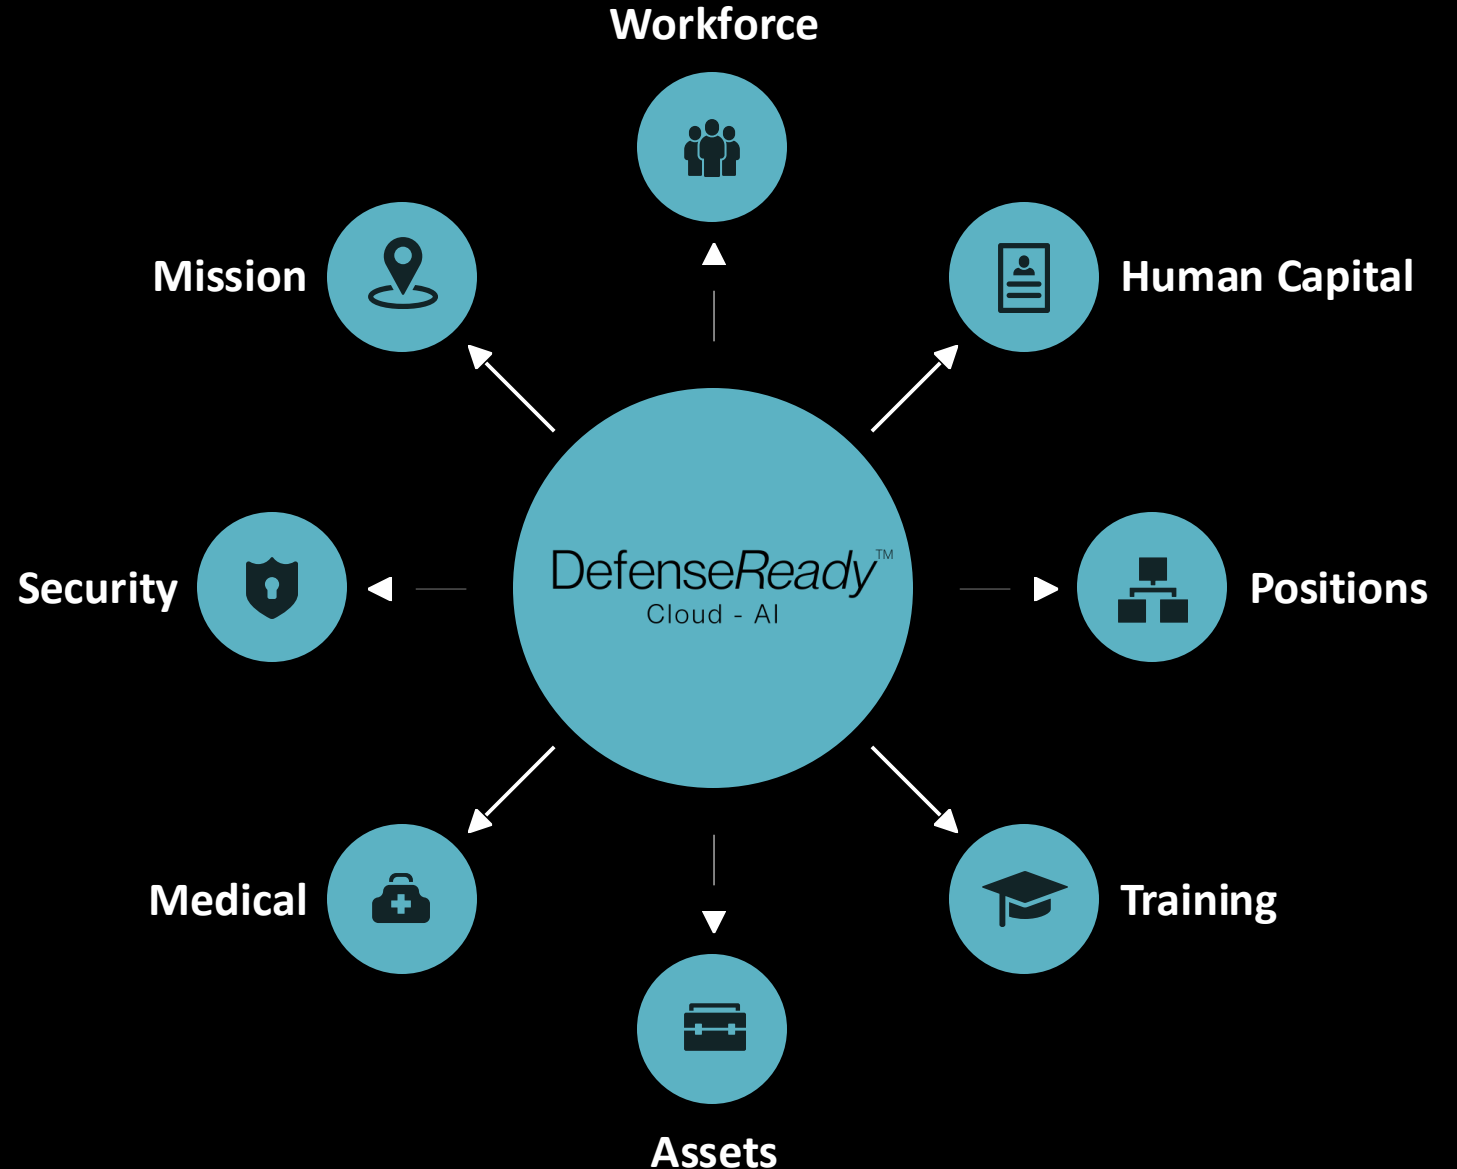

AUTHENTIC

Designed with help from customer requirements.

How we align:

USMC	Permuta

MARINE DATA EXPERIENCE	OUT OF THE BOX WORKFORCE MGMT/TRAINING SOLUTION WITH WORKFLOW	MANAGE DATA EASILY AND SECURELY, ROLE BASED, CAC SIGN ON	MODULAR, MODERN, SCALABLE, INTEGRATES

AI-powered DefenseReady (one that is trained to understand DoD) ensures real-time readiness, optimizing people, assets, decisions.

Permuta - Defense*Ready*

Benefit to USMC

—

Integrates across all functional areas.

1. Easily manage faces, spaces, evals, awards, training, skills, career, accountability, and RFI's

2. Easily manage security clearances, screenings, incidents, threats, visitors

3. Easily build Task Forces, find the right person for right task

4. Easily manage assets, equipment, vehicles, vessels, logistics, mission readiness

1. Easily manage short and long range planning and execution with pre-built templates

2. Track tickets, equipment, empower end-users, codeless configuration

3. Easily Manage full suite of training tools

4. Easily manage strength, positions, authorizations, projections, shortfalls, and reports

AI & Machine Learning in action

Permuta's DefenseReady Cloud brings AI and ML capabilities to the forefront of military readiness.

AI CHAT TRAINED FOR DoD

Meet mission needs through augmented intelligence chat experience.

SINGLE PANE

Leaders are provided with a single pane of glass view, integrating data from various sources to deliver actionable insights.

PREDICTIVE

Use cases include predictive assignments, predictive training, readiness forecasting, allowing for preemptive actions to mitigate risks.

TRUSTED BY...

..diverse customers now unified in capability.

We cover DoD needs from Joint, Single-Service, SMU's, across multiple networks and classifications, tracking everything for the member and unit.

For Federal we cover everything from Civil Servant organization needs, emergency management to deploying science teams studying our environment.
