

OGE 450 SUPERVISOR REVIEW

Remember...you are not just signing the 450...you are reviewing for financial conflicts!

Review for reported liabilities, income, and/or assets which relate in any way to the performance of official duties

Verify report has no missing or incomplete entries (i.e. reporting spouse income w/o name of spouse employer)

Disclosures should be specific (i.e. listing specific stocks, not just "brokerage account")

Ask employees to clarify answers if more specificity or information is needed
